THE EMA PRIZE On the same occasion this new prize was launched, with the aim of recognising the outstanding results of organisations, researchers and cultural institutions in creating pioneering museums or producing studies and carrying on projects of European relevance which are destined to influence the development of museological discourse at the international level. The first winner of this Award is the Galileo Museum in Florence.

DASA gave its own Award at the meeting to Portimão Museum in Portugal for its portrayal of the local working environment.

RECENT PUBLICATIONS

Banks and Museums Beyond Sponsorship: An Overview of Museums Created by Bank Foundations
Bononia University Press, ISBN 978-88-7395-610-5.

In June 2010 a Focus Group with this title was organised in co-operation with the Fondazione Cassa di Risparmio in Bologna (Carisbo Foundation) and the Genus Bononiae museums in the City, the new local city museum created by the Carisbo Foundation. During the meeting presidents of bank foundations and directors of important European museums created by banks, started discussions in order to make an overview of this topic. The book which was the result of these deliberations collects different experiences which are of interest not only to insiders but also to visitors and heads of similar public and private organisations.

Further information can be found on the EMA website. Free copies of the book are available for study and research purposes by contacting info@genusbononiae.it.
